

# Bactosol Purple Beerline Cleaner

## Chlorinated alkaline detergent with colour indicating additive for cleaning beerlines

### Key properties

- Colour changing to indicate lines are clean and clear
- Will not cause tainting or beer head retention issues

### Benefits

- Designed to effectively and safely clean beer dispensing lines
- Regular use will keep lines clear and reduce possible fogging of the beer

### Use instructions

1. Draw the solution through the dispense tap until the solution becomes purple
2. Leave to soak for between 5 – 30 minutes depending on soil level
3. Draw off the solution and check the colour, if the colour is not purple repeat the cleaning process until purple colour is evident
4. Rinse the cleaning solution from the line by flushing with clean water, until there is no trace of colour in the rinse water

### Dosage\*

Dilute between 0.78%-2.5% dependent on water conditions.

example: 78ml - 250ml per 10 litres of cold water dependent on water conditions. (Between 3-8 pelican pumps).

*\*This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

### Technical data

|  |                     |
|--|---------------------|
| Appearance:                                  | Translucent, Purple |
| Odour:                                       | Chlorine            |
| pH value (neat):                             | > 12                |
| pH value (in use):                           | ~ 13                |
| Relative density (g/cm <sup>3</sup> ; 20°C): | ~ 1.16              |

*The above data is typical of normal production and should not be taken as a specification.*

### Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; [sds.diversey.com](https://sds.diversey.com). Store in original closed containers away from extremes of temperature. Only for professional users / specialists.
