

# Twister™ Extreme Red

An Original Diamond Pad

## Twister™ Extreme Red Chemical free stripping and surface restoration

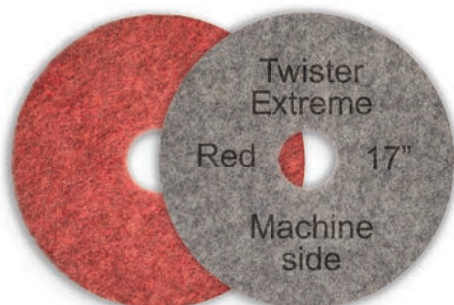

**Twister™ Extreme Red is a rigid, high performing floor pad designed to tackle heavy-duty tasks without the use of chemicals. Strip and restore your floors using only water.**

Like all Twister™ pads, Twister™ Extreme Red contains billions of microscopic diamonds. This makes it possible to use mechanical action and water instead of harsh chemicals when restoring worn down floor surfaces. With Twister™ Extreme, floor coatings, stains and burns are easily removed in one step. Even honing of different floor types is possible with this pad.

Thanks to the ability to remove coatings and remedy the floor surface in one single step, the Extreme pad works exceptionally fast and efficient in stripping and restoration procedures.

Eliminating chemicals also means eliminating extra costs and time consuming steps. With Twister™ Extreme Red, the process is as simple as it is safe. Less human errors, safer for the user and better for the environment.

- Restore worn down floors without chemicals.
- Chemical free solution - safe and eco-friendly.
- Eliminates cleanup of stripping chemicals = cost and time savings.
- No slippery residue

Weight	37 osy / 1255 gsm
Fiber Type	Recycled polyester and natural hair
Binder System	Cross linkable water based
Binder Application	Spray
Impregnation Application	Spray
Impregnation	Industrial Diamonds Proprietary mix of sizes
Color raw material	Gray
Color impregnation	Red
Pack	2 per case

#### 3.0 Use

Twister™ Extreme Red is ideal for chemical free stripping of floor finishes as well as stain and etch repair of hard floors. It can also be used for light honing.

#### 4.0 Construction

The Twister™ Extreme Red is made of recycled polyester and natural hair, impregnated with billions of microscopic diamonds.

#### 5.0 Labelling

Labelling clearly identifies product name, size, item number, color, quantity, origin and EAN code.

#### 6.0 Environmental Initiatives

- Polyester fiber used in Twister™ pads come from recycled material and natural hair.
- Shipping cartons contain at least 45% recycled material.

- Manufacturing plant is ISO 14001 certified.

#### 7.0 Directions for Use

- Dry mop the floor to reduce the wear on your Twister™ pad, as well as on the floor.
- Mount the Twister™ pad on the pad holder. The pad is mounted with the text "Machine Side" facing the machine and the red side facing the floor.
- Fill the tank with water. You are now ready to scrub the floor.

#### 8.0 Product Care

For optimal results and lifespan of the Twister™ pad, rinse the pads with water after use.
