Customers

### Description

Twister High Traffic is an innovative method for daily floor maintenance that cleans and polishes unprotected floors by using floor pads prepared with billions of microscopic diamonds. The High Traffic Program is specially developed for large areas like airports, shopping malls, supermarkets etc. and areas with many visitors per day. The diamond impregnated side of the pad is colored and also works as a wear indicator.

Twister HT significantly reduces the need for periodic floor maintenance, whilst also lowering the overall cost. These long lasting pads, used in sequence, transform a floor to a clean, shiny and polished surface. The Twister HT Pink pads can be used for both daily and deep cleaning in retail and high traffic areas. The pink HT pad has a lifespan up to 50 000 m<sup>2</sup> under optimal circumstances (17").

### Instructions for use

- Select the right size of Twister pad
- Mount side labelled "Machine Side" facing the machine and the colored side facing the floor
- Use appropriate TASKI chemical with Twister pad
- Clean and polish
- After use, rinse the Twister pad
- If the color is gone, change the pad

*Please note: The diamond impregnated side of the pad is colored and works as a wear indicator.*
